The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/578,209	Applicant(s) STEPHANOS, PRODROMOS PERICLES	
	Examiner Kimberly S. Smith	Art Unit 3644	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 19 is objected to because of the following informalities: line 6: replace "an" with -a- -. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 19-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 19 recites the limitation "said extension arm" in 11. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 20 recites the limitation "said attachment arm" in line 2. There is insufficient antecedent basis for this limitation in the claim.

6. Claim 20 recites the limitation "said clip assembly" in lines 2-3. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3644

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Phillipson, US Patent 1,784,880.

9. Phillipson discloses a lapping pan (10), a clip (12a) projecting upwardly from a rearward portion of the pan, the clip defining a bifurcated bottle gripping end being generally semi-circular in configuration defining an inward and outward surface (i.e. the top and bottom as viewed in Figure 4) wherein when the collar portion is adjacent the inner surface (i.e. the clip is attached 180 degrees from the position shown in Figure 1), it is in a serving position and when adjacent the outer surface (such as shown in Figure 1), is in a nested storing position.

Claim Rejections - 35 USC § 103

10. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

11. Claims 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Phillipson, US Patent 1,784,880.

12. Phillipson discloses the invention substantially as claimed but does not positively recite the claimed dimensions. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the claimed dimensions for the apparatus, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranginess involves only routines skill in the art. *In re Aller*, 105 USPQ 233.

Allowable Subject Matter

13. Claims 1-18 are allowed.
14. The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to teach or render obvious a drinking device for pets comprising a lapping pan inclusive of a clip assembly for carrying the water bottle wherein the clip assembly comprises an extension arm portion defining a bifurcated gripping end and an attachment arm portion extending substantially perpendicularly from the extension arm portion such that the clip assembly is moveable between a first and second position defining a serving and nested position.

Conclusion

15. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note documents listed on attached Notice of References Cited.
